All guests start with \$500 in funny money or chips.

The system is designed to save time and ensure all guests have an equal opportunity.

Each guest receives ONLY one sheet of tickets, with a maximum of 10 tickets per sheet. To maintain fairness, guests can exchange up to \$5,000 in chips.

For every \$500 in chips cashed in, one ticket is awarded, rounded up to the next \$500.

This system assigns only one ticket number per person, eliminating the hassle of searching through multiple numbers.

It also facilitates easier engagement with intoxicated guests, as rolled ticket numbers are difficult to see in low light.

Faster distribution from dealers speeds up the chip exchange process, allowing everyone to enjoy the event without long waits.

Each guest gets one ticket even if they do not play the games. This allows everyone a chance to win a prize.

We DO NOT supply any prizes.
